7 January 2021

## TO MY VALUED PATIENTS

As most of you know, I have been talking for years now about retiring and last year had set my target date to early January, 2021 Well, the time has finally arrived! As of the first week in January of this year, I am officially retired from clinical practice and I have now treated my final patient.

It has been my great pleasure and honor to have been your treating physician and surgeon over the years. So many of you have been my loyal patients for a long, long time, and I have not taken that loyalty for granted for a single minute. It humbles me when I think of how many of you have entrusted me with your appearance, as well as with your health, your safety and your life. I also enjoyed all of the conversations and laughs that we have shared!

Having been in the privileged position to be able to boost the confidence and self esteem of so many of you, has brought more happiness into MY life than you can ever imagine. For those of you who have told me that the results of your procedure(s) have changed your life: well that alone, has made it all worthwhile to me.

I again thank you for your loyalty and will miss you greatly!

God bless you all,

Dr. Dave
